East Coast Railway SGF

Raksha Bandhan - It such an important issue! Safety, security, emotional and physical support of agile senior citizens. Simple and logical outcome of their sky reaching ambition to put their children on the top of the world. Nobody can be blamed not the children nor the dreaming ambitious parents. After ensuring with all the sacrifices to put children on the top we cannot say them to step down leaving their dreams for their progeny, because we have become old and invalid. Even if they call always we can't go to live with them as we do not want to leave our hard earned house, locality and neighborhood. Problem is self-perpetuating and complex. There is the law of the universe: to look ahead and not to look back when the demand is conflicting. All of us have done that throughout our lives. Only difference is that we were somewhere around near our parents and we had enough siblings to divide our duties towards our parents. Or the younger siblings of sr citizens were there as prevalent in villages where they all live together or nearby. Time has changed and that luxury of having a team of siblings is now a dream. Call of the time is

to search or create those siblings amongst ourselves in our workplace or neighborhood. To create the Basudeb Kutumbakam of the ancient scriptures in real sense of the term so that the agile sr citizens are not condemned to be loners at their ripe age. A small step towards the goal by Eco Railway SGF (Scouts Guides Fellowship) on the day of independence and Rakshya Bandhan —A well-being camp for the Sr citizens of Khurda Road in cooperation with BS&G Khurda Road. Led by Manju Ray President of State SGF and team of volunteers on 15th August 2019.
