Vienna, 2019-10-23

Dear brothers and sisters in Adult Scouting and Guiding,

For the coming World Fellowship Day we send the best greetings and wishes to all of you. Let ourselves remind, that the Scout and Guide Movement is really unique and popular in the world. We as ISGF are an important part of the "Family" and give opportunity to adults to live our Scout and Guide Promise further on.

The yearly Fellowship Day let us remind, that we are responsible for our planet and the coming generations, so they have the possibility and the right to live their life in a world, worth to live in. Nevertheless we have the responsibility to care for our brothers and sisters, they are poor, ill, they are suffering on catastrophes, like war, change of climate and more evil things. There are so many projects on local level, we can do a lot for the community, we live in. A theme of today is "Think Globally, Act Locally" and that can show us the way, how we can serve our society as one family.

The Fellowship Day is also a day, where we remind our brothers and sisters, they have left us, ongoing to the "Last Big Camp". We will never forget them and be thankful to have them known and have walked a bit of the way with them.

So let us make our fellowship visible: globally, internationally, nationally and – very important – locally.

Yours in fellowship

Vizepräsident der ISGF-Subregion Zentraleuropa
Vizepräsident der ISGF-Region Europa

Referentin für Rumänien in der SRZE
Leiterin der Zentralgilde in der PGÖ
